Boys & Girls Tech Program for Ages 6 - 12

July 12 - July 16: Level 1 LEGO / Tech

July 19 - July 23: Level 2 LEGO / Animation

July 26 - July 30: LEGO / Digital

Cost: \$165 per week

The Technology Center combines intensive educational activities in computer science with traditional activities including outdoor activities, group games, crafts and more. The weeks are broken down by skill level and personal interest. An exact course schedule will be available at registration. The curriculum includes all of the following:

Lego Robotics: Members will design cars, elevators, and airplanes out of legos. Members will use programming language to bring their creations to life.

Architecture & Construction: Using Factory Deluxe, Lego Dacta, Sierra Architect, The Sims Sim Tower and more, members will create their own empire.

Electronic Publishing: Members will create a "Tech Talk" newsletter for the club, using Creative Writer, Microsoft Office, access to digital and video cameras, Photo Draw, and more.

Animation & Drawing: Artists can make their imaginations soar using Bryce, Flash Kai's Power Goo, Creative Writer, Microsoft PowerPoint, Publisher, and HyperStudio.
